

## TRBO Story Board

---

Make a hub for TRBO's client's electronic files.

- As a user, I can go to a website and get a compelling experience of what the website is about.
  - As an admin, I want to be able to invite users to sign up.
  - As a user, I want to be able to login and upload projects (multiple pdf files per project).
  - As a user, I should not be able to see other user's projects.
  - As a user, I want to be able to mark projects with a status (started, on hold, finished, etc.).
  - As a user, I want to be able to add sub directories to a project to hold files.
  - As an admin, I want to be able to see all user's projects.
  - As an admin, I want to be able to upload finished projects to user's project folder.
  - As an admin, I want to be able to add sub directories to a project to hold files.
  - As a user, I want to be able to search my project files.
  - As a non-user, I want to request an estimate.
  - As an admin, I want to be able to sort all projects by status.
  - As an admin, I want to be able to create estimates.
  - As an admin, I want to be able to attach invoices to a project.
- 
- Project should use a cloud-based service.
  - Project should use optimized for speed.
  - Project should be secure.
